## PROFESSIONAL SUMMARY

- Mobile Application Developer and Software Engineer with 5 years of experience in Kotlin and Flutter (Dart). Currently driving enterprise application development at **CCC**, following a successful tenure delivering media streaming solutions at **SOFCO LLC**. Skilled in building scalable cross-platform and native mobile apps, optimizing database performance (SQL/FoxPro), and automating business processes. Seeking to leverage technical expertise in a challenging engineering role.

## EDUCATION

- **Helwan National University** Helwan, Egypt  
*Bachelor of Technology - Business Informatics and Digital Transformation; GPA: 3.51 Sep 2022 - June 2026*  
*Courses: Operating Systems, Data Structures, Algorithms and Problems Solving, Artificial Intelligence, Python, Networking, Databases, Mobile Application, System Analysis and Design, Data management, Systems Development, Digital Transformation, Foundations of digital technology*

## LANGUAGES

- **Arabic:** Native **English:** Professional **French:** Elementary

## SKILLS SUMMARY

- **Programming:** Java, Kotlin, C#, JavaScript, SQL, Visual FoxPro, Python, Dart, VBA
- **Tools:** Android Studio, IntelliJ, GitHub, VS Code, Visual Studio, Azure, MySQL, PostMan, PyCharm
- **Platforms:** Linux, Web, Windows, iOS, Android, AWS, Google Cloud, Render
- **Soft Skills:** Leadership, Risk Management, Abstract Thinking, Problem Solving, Time Management, Team Work

## EXPERIENCE

- **Consolidated Contractors Company - Fifth Settlement , Cairo** On-site  
*Software Engineer (Full-time) Dec 2025 - Present*
  - **In-house Application Development:** Developed and maintained enterprise desktop applications using **Visual FoxPro** and **SQL Server**.
  - **Data Automation & Visualization:** Created automated reporting tools and interactive dashboards using **Excel VBA** and **Power BI**.
  - **Mobile Solutions:** Built cross-platform mobile modules using **Flutter** and **Dart** to extend system accessibility.
- **SOFCO LLC - Tahrir Square , Cairo** On-site  
*Mobile Developer (Full-time) Jun 2024 - Sep 2025*
  - **Application Development:** Developed and maintained mobile applications including **Moshtar**, **TournamentX**, and **Funoon** (Mobile & TV) using Kotlin, Java, and XML.
  - **Backend Integration:** Collaborated on API integration using ASP.NET and Microsoft Azure within the Visual Studio environment.
  - **Android TV:** Designed and implemented user interfaces specifically optimized for TV remote navigation for the Funoon TV application.

## PROJECTS

- **Employee Manager - CCC (FoxPro, SQL):** Developed an in-house HR system to manage employee records, including salary classification (Monthly/Daily) and payment methods. Features detailed tracking of banking information, branch codes, and account numbers.
- **PayIT Auto-Fill Utility - CCC (FoxPro, Excel, SQL):** Created an automation tool integrated with the "PayIT" application to eliminate manual data entry. Enables bulk import of employee data from Excel, automatically populating all system fields for payroll processing.
- **Rehla - Tourism Mobile Application (Flutter, Dart):** A comprehensive tourism platform featuring real-time chat, secure payments (Fawry, InstaPay), multilingual support (7 languages), and income tracking charts. **App Store Play Store**
- **Funoon - Mobile Streaming App — SOFCO LLC (Kotlin, XML):** Developed a movie and TV show streaming app with live TV channels, extensive Arabic content library, and real-time API integration. **Play Store**
- **Funoon - Android TV App — SOFCO LLC (Kotlin, XML):** Optimized streaming application specifically for Android TV interfaces, featuring seamless navigation and a rich entertainment library. **Play Store**
- **Moshtar - Quotes & Sayings App — SOFCO LLC (Kotlin, XML):** Developed a quotes application featuring a Home Screen Widget, daily notifications based on user preferences, and API integration for fetching dynamic content. **Play Store**

## CERTIFICATIONS
